

**NOTICE REGARDING NOTIFIABLE SUBSTANCES (REG 8): BULK STORAGE OF ANHYDROUS AMMONIA (NH<sub>3</sub>), UN No: 1005**

According to the Occupational Health and Safety Act, Act 85 of 1993, Major Hazard Installations Regulation, Omnia Fertilizer must declare the storage of more than 20 tons of Anhydrous Ammonia. Omnia Fertilizer also has to inform the community in the vicinity of the installation of storage of Anhydrous Ammonia.

This notice serves to advise the community that we store 230 tons of Anhydrous Ammonia at this facility.

Omnia Fertilizer: A Division of Omnia Group (Pty) Ltd

Rendezvous Street, Viljoenskroon Industrial Area, Viljoenskroon

We have an Emergency plan in place and the updated version has been communicated to the relevant authorities. All Employees are trained in the contents of the updated plan and regular evacuation drills are practiced. The emergency alarm is tested every Monday at 17h00. A meeting was conducted with emergency services on the 15<sup>th</sup> of November 2011 to discuss emergency response in the unlikely event of an accidental release.

In case of an emergency release, the alarm will sound and advise you to please follow these steps:

- Get indoors and out of the direction that the wind is blowing in.
  - Close all windows and doors.
  - Switch off the air conditioner.
  - Always have water and a piece of cloth close by.
  - Wet the cloth and keep it over your face, if you smell ammonia.
  - Wait for our instructions.
- Call us should you have any queries/problems/questions.
